

# NSV3C

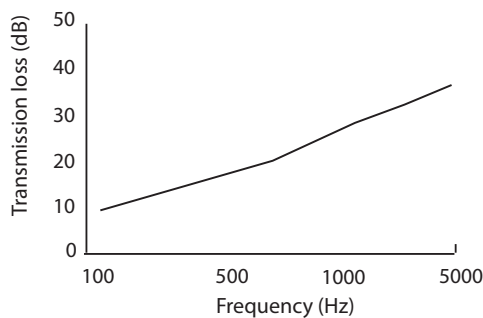

# SOUNDPROOF CURTAIN (CLEAR TYPE)

## DESCRIPTION

NSV3C is made of high-density vinyl (thermoplastic polymer) which has excellent electrical and sound insulation properties, making it ideal for use as soundproof curtain in the area or the most in-and-out operation.

## ROLL SIZE:

width 1.00 m ; length 10.00 m ; thickness 3 mm

FREQUENCY (Hz)	63	125	250	500	1000	2000	4000	8000
TRANSMISSION LOSS (dB)	19	15	19	22	28	32	37	43

## APPLICATIONS

- Acoustical rooms & buildings
- Soundproofing curtains
- Soundproofing walls
- Noise reduction enclosures
- Machines' vibration reduction
- Piping's noise reduction

## PROPERTY & ACOUSTIC PERFORMANCE

- Mean sound reduction index 22 dB
- Approx. weight 5 kg/m<sup>2</sup>
- Tensile strength 2.6 Mpa
- Hardness 90 shore A
- Operating tem. -30 °C to + 65 °C
- Elongation at break 90%
